Objective

I am a current part time Computing and IT (Computer Science) student at Open University looking to forward my career with a role as a Junior Web Developer or similar. I believe studying whilst working as a Junior Developer will help me to grow quicker as a developer from learning from more senior developers.

My career goal is to become a Full Stack Web Developer or perhaps a Lead Web Developer.

Education

BSc (Hons) Computing and IT | Open University (2019-Present)

Currently I am on track to get a Distinction, although I still have three years of part time study remaining. The modules I have completed include subjects like Mathematics, Object Oriented Java and modules looking at Operating Systems, Robotics, Python and AI amongst other things. I am currently studying Algorithms and data structures and I will be studying Web Technologies next.

BA (Hons) English | University of Wales, Trinity Saint David (2012-2015)

During my previous degree I improved many abilities that are applicable to my current goals, such as:

- Communication (written/spoken) skills
- Problem solving skills
- Analytical skills
- Time management skills
- Research skills

Experience

Amazon Associate (2018-present) | Amazon

- I usually work as a SLAM operator where most of the packages in the Fulfilment Centre are labelled and verified before being sent to shipping.
- SLAM operators are reliable team players, trusted as the last associate checking customer orders are correct.
- I also occasionally work in Stores getting stock that the department needs for the shift.

Catalogue Assistant (2017-2018) | Simon Charles Auctioneers and valuers

- My responsibilities were to photograph and write descriptions for lots in the daily online and live auctions.

- I was regularly the Lotter of the month, as I frequently catalogued the most items.

Stockroom Assistant (2009-2011) | Debenhams (Manchester)

- I worked in a small fulfilment team responsible for fulfilling daily online orders this entailed picking, packing, and sending the orders for shipping.

</> Relevant Skills

- Java
- Python
- React
- CSS/HTML/JavaScript
- Critical thinking
- Self-directed study

Activities

In my personal life I have been coding personal projects such as my personal portfolio website which showcases some of my skills better than this CV can. My website is written in React; the website's URL is at the top of my CV.
